Quarterly Progress Report For the period April 1, 2010 to June 30, 2010 TPF-5(117)

Project Dates: March 6, 2008 – August 25, 2011

Project Title:Development of Performance Properties of Ternary Mixtures:
Laboratory Study on Concrete and Field Demonstration Projects

ISU Principal Investigator:	Peter Taylor, 515-294-8103, email: ptaylor@iastate.edu	
Uof U Principal Investigator:	Paul Tikalsky, 801-581-6931 email: tikalsky@civil.utah.edu	

Progress Report:	
Project is on schedule	Yes with extension
Project is within budget	Yes
Significant changes in project description	No

Problems (current or anticipated): None

Products and tangible results this quarter (reports/articles written, oral reports/interviews given):

Interaction with Technical Monitor and/or Project Advisory Committee:

• Multiple implementation efforts are moving forward with UT, KS, MI, PA. The representatives from each state are active in this stage.

Brief summary of this quarter's research and activities pertaining to the project:

- Final report for Phase 2 is under review
- A field report describing the work conducted in Kansas was completed
- Field work was conducted at a pavement construction in IA
- Plans were finalized for visiting PA and NH

Main emphasis for next quarter:

- Phase 2 will be completed
- Reports for MI and IA will be completed
- Work will continue in developing sites to visit in the next year including CA.
- Visits will be made to PA and NH

No.	Task Description	Completion Date Expected	% completed
1	Field Project Identification	April 2010	50
2	Mixture Design Development Assistance.	April 2011	30
3	Field Demonstration Documentation	January 2011	25
4	Technology Transfer	January 2011	20
5	Model Specification	August 2011	10
6	Final Report	August 2011	0

Quarterly Report –July 2010
