Project Description:

The purpose of ITTS is to support member states in developing their competitive advantages to capture trade opportunities and economic benefits through improved transportation planning, investments, collaboration, and operations.

ITTS provides the following services towards achieving its purpose.

- Provide a platform for regional collaboration
- Inform members of current and anticipated freight trends
- Develop effective freight planning tools for member states
- Identify and nurture close and collaborative working relationships with relevant federal and state agencies, associations, academic institutions, and private sector firms, to keep abreast of developments in freight planning and trade, and to enhance the outcomes of work on common interests
- Assist member state DOTs to integrate freight planning into their core business procedures
- Partner with other organizations, including, but not limited to, public agencies, private firms, multi-state coalitions, and industry associations, to advance freight planning through research and collaboration
