Good afternoon Casey,

Per our conversation earlier today, attached is a summary technical memorandum that serves as our Final Report for the SUMA Pooled Fund Study. The attached contains a link with all FY23 resources as well as resources from this pooled fund study going back to FY 2009.

Please let me know if you have any questions.

Thanks  
bill

**Subject:** SUMA Task 5 (Summary of FY22 Deliverables, Memo)

Hello everyone,

Please see attached for our final deliverable of FY2023– it is the “Summary of SUMA FY2023 Deliverables by Task.”

As the name implies, this is a listing of all of our deliverables for FY23 on SUMA. This includes meeting notes, webinar recordings, tech memos, handouts, slides and so much more. It is your “one-stop-shop” for the yearly resources.

Even more important, a link is provided in the memo (<https://tti.tamu.edu/documents/umi/data/suma/files.htm>) that will get you to a \*.zip file of all the deliverables back to FY09. Please note – **give me about a week to get the FY23 final deliverables loaded into the FY23 \*.zip file** (they are not there just yet).

On behalf of the team, thank you for the opportunity for us to serve you another year! I believe we have tackled some critically-important topics, and provided you with some resources that can help you with your everyday decision-making.

We look forward to serving you in the near future. Please note that the pooled fund is currently paused while we transition lead agency from TxDOT to MnDOT. We are actively working with MnDOT, and will have more information soon.

Please reach out if you have any questions.

Thanks,  
Luke
