## **Project Progress:**

Planning for the next meeting of the pooled fund study was done during the quarter. The next meeting is scheduled for June 2-3 in Gainesville, Florida. The Florida DOT will be hosting the meeting at their new Research Park facility that houses their Heavy Vehicle Simulator. Attendees for the meeting will include 3 from Mn/DOT, one from Caltrans, 5 from TxDOT, and 3 from WSDOT. In addition we expect 2 from the University of Minnesota, 1 from the University of California at Berkeley, 1 from the University of Texas at Austin, and 3 from the University of Washington. The agenda will include a tour of the FDOT Research Park laboratory facilities, presentation on research activities by FDOT staff, and the usual updates on activities from the four participating states.

## **New Period Proposed Activity:**

The minutes of the Florida will be completed and posted on the SPTC web site. Planning will also begin for the next meeting which is expected to be in California in late November/early December.
