Quarterly Progress Report

October 1, 2003 through December 31, 2003

Work Completed (October 1, 2003 through December 31, 2003):

- Developed plansheets to document the system design
- Finished fabrication of the system including two sets of poles and clamps
- Contacted three vendors (Wavetronix, EIS and SmarTek) to purchase or borrow sensors for testing
- Developed draft PNITDS test plan
- Prepared for field tests

Planned Activities (January 1, 2004 through March 31, 2004):

- Finalize design plan sheets for the pole mounting system
- Finalize PNITDS test plan
- Start field test
- Continue to update project progress report on the project website
