

Memorandum

6300 Georgetown Pike McLean, VA 22101

- Subject: **INFORMATION:** Transportation Pooled Fund (TPF) Solicitation #1545 "Integration of New Traffic Signal Actuation Concepts using Enhanced Detector Information"
 - From: Kelly Regal, Ph.D. *Kelly Regal* Associate Administrator for Research, Development, and Technology McLean, VA
- Prepared By: Tricia Sergeson, PMP Transportation Pooled Fund Program Manager, Office of Corporate Research, Technology & Innovation Management McLean, VA
 - To: Timothy C. Marshall Division Administrator (HDA-IA) Ames, IA

This memorandum is in response to the October 23, 2020 e-mail from Micah Loesch of your staff, requesting the waiver of the non-Federal funding match for State Planning and Research–Subpart B (SP&R-Subpart B) funds for TPF solicitation - "Integration of New Traffic Signal Actuation Concepts using Enhanced Detector Information". We understand that the Iowa Department of Transportation will be the lead agency for this project and Khyle Clute at khyle.clute@iowadot.us will be the lead agency contact.

The proposed study meets the criteria for use of SP&R–Subpart B funds used for research and development studies without non-Federal matching funds. The approval status will be reflected on the TPF website: <u>www.pooledfund.org</u>, which serves as the primary mechanism for communication regarding pooled fund studies.

It is important to remember that the lead agency contact is required to report on the status of the pooled fund study on a timely basis. The lead agency contact should notify Tricia Sergeson via email at <u>patricia.sergeson@dot.gov</u> and Masha Shelton at <u>masha.shelton.ctr@dot.gov</u> when the contract is signed and electronic copies of the quarterly and final reports and other relevant study documents are posted on the Transportation Pooled Fund website. By doing so, the lead agency will be fulfilling its obligation to provide information to its partners on the status of the project.

Date:

In Reply Refer To: HRTM-10 Deb Curtis, Transportation Operations Applications Team Member in the Office of Operations Research and Development will be the Federal Highway Administration's Technical Liaison for this study. Ms. Curtis can be reached via telephone at (202) 493-3267 or e-mail: <u>deborah.curtis@dot.gov</u>. We hope that Ms. Curtis will have the opportunity to participate in the study activities as a technical resource to the project.

You may contact Tricia Sergeson via telephone (202) 493-3166 or email at patricia.sergeson@dot.gov if you have questions or need further assistance.
